## **The Student Prince**

A MUSICAL ROMANCE

Based on the Play "Old Heidelberg"  
Book and Lyrics by Dorothy Donnelly  
Music by Sigmund Romberg

ST. ANTHONY AUDITORIUM

Saturday, April 30

Sunday, May 1 and 8, 1960

---

## SYNOPSIS

*The setting of "The Student Prince" is beautiful, romantic old Heidelberg. Near the University grounds is a time-mellowed little Inn, where a congenial band of students have gathered. The story introduces Prince Karl Franz, who has enrolled in the University and taken his place in the student life. Between the Prince and Kathie, the Inn's pretty maid, there is a growing affection.*

*However, it is to be a brief romance. Karl Franz is suddenly recalled to his royal duties, and reminded of his betrothal to a lady of rank. The parting between Karl and Kathie is poignant, but both know the country must be served.*

# So much more for so much less— GAS naturally

**GAS IS THRIFTY** — as just about everyone knows! For cooking, water heating, drying, incineration, refrigeration, air conditioning or home heating—gas lets you count up substantial savings daily. With gas heating, for instance—you'll save as much as one-third on fuel, and gas drying costs one-fifth as much as other types of drying. Gas is clean, fast and silent, too! You get so much more for so much less with gas, naturally.
